

RETAIL/TRADE

Stone and Water World

“I have used numerous different accounting packages in my time, and while many of these simply don't do what you expect them to do, I have never had that problem with Prophet. It is so logical and simple to use; we even use it at our point of sales – it is a really great system.

The support we get from our Prophet consultants at Neogen Ltd is also fantastic. It is good to know that I can always call and speak to someone or get them out here on site whenever I need them.

I would thoroughly recommend Prophet Business Software to any business.”
